

Windowmaker Option

Multiple Stock Sizes

Overview

A facility to optimise different sized stock sheets of various glass types.

Benefits

The Glass Shop/ Supplier

- ▲ Gains flexibility to easily handle glass of varied stock sheet sizes
- ▲ Improves optimisation yield significantly for smaller sized glass stocks
- ▲ Achieves better planning by comparing optimisation results based on different stock sheet sizes

Features

▲ You can:

- △ Define details for up to 20 different glass stocks
- △ Store up to 10 different sizes of stock sheet
- △ Define the size of each stock sheet
- △ Edit or delete stock sheet details

The screenshot shows a window titled 'Glass Stock 2: 6mm Clr' with a table of stock sheet details. The table has columns for 'In Use?', 'Cutting Table', 'Width', 'Height', and 'Stock'. The data is as follows:

	In Use?	Cutting Table	Width	Height	Stock
1	Yes	Handcut	3120	4000	No Limit
2	Yes	Bottero	3120	2000	1
3	Yes	Powergrind	3120	6000	2

▲ The program allows you to select from up to 10 different tables for cutting a stock sheet.
